

One-on-one implementation support delivered inside a participating licensed clinic — turning recommendations, therapy goals, and support plans into practical follow-through in daily life. ANUVO provides implementation support only: not therapy, diagnosis, or regulated clinical treatment.

## YOUR PATHWAY, IN FIVE STEPS

### 1. Program Fit Call

Free 15-minute virtual call. We listen, answer questions, and say honestly whether this fits.

### 2. Preferences Assessment

A structured look at how your child learns, engages, and responds — no diagnosis, no testing labels.

### 3. Preferences Blueprint™

Your plain-language plan. It sets out what sessions will practise, week by week.

### 4. Sessions at the clinic

One-on-one implementation sessions inside a participating licensed clinic space.

### 5. Updates and check-ins

Short weekly progress notes, plus a monthly meeting to review and adjust together.

Enrollment is never automatic. A Program Fit Call is a conversation, not a commitment. Fit, availability, and registration are confirmed in writing before anything begins.

## FEES AT A GLANCE

**One-time onboarding** **\$890**  
Preferences Assessment and Blueprint (\$595) plus the clinic-hosted framework administration fee (\$295).

**Monthly package** **\$495 – \$1,695**  
Based on how often your child attends. You pick the frequency that fits your family.

**Who you pay** **The clinic**  
For the Smile 4 Therapy pilot, families are billed by and pay Smile 4 Therapy directly, unless agreed otherwise in writing. ANUVO then invoices the clinic.

**Always in writing** **Before you decide**  
Fees, start date, and what is included are confirmed in writing first. Enrollment is not automatic.

## WHAT'S INCLUDED

- Preferences Assessment and written Preferences Blueprint™
- One-on-one implementation sessions in the clinic space
- Weekly written updates after each week of sessions
- Monthly family feedback meeting to review and adjust

## HOW PAYMENT WORKS

1. You receive the fees, package, and start date in writing after your Program Fit Call.
2. You confirm in writing if you'd like to go ahead. Enrollment is never automatic.
3. The clinic invoices you for onboarding and the first month; sessions begin once payment is confirmed.
4. Monthly package fees continue on the same schedule. You can ask to change frequency in writing.

## WHO DOES WHAT

### The licensed clinic (Smile 4 Therapy)

Provides and oversees any regulated clinical services, supervision, and the clinic space where sessions happen.

### ANUVO

Provides implementation support: the Preferences Assessment, the Preferences Blueprint™, structured one-on-one sessions, and written updates. ANUVO does not independently provide regulated clinical services.

### Your family

Shares what matters at home, joins the monthly meeting, and decides whether to continue. Enrollment is never automatic.

## WHAT ANUVO DOES NOT DO

- Diagnose, assess clinically, or provide therapy
- Independently provide regulated clinical services
- Decide enrollment on its own — enrollment is never automatic

## THE CLINIC MAY ALSO HAVE ITS OWN STEPS

A participating clinic may also complete its own clinic-side meeting, intake step, suitability review, funding discussion, or payment process before enrollment is confirmed. The timing of the clinic-side meeting may vary. If the family is already connected to the participating clinic, the clinic may meet with the family before or alongside ANUVO's Program Fit Call. If the family is new to the participating clinic, ANUVO may first complete the Program Fit Call and then coordinate with the clinic where applicable. Enrollment is not confirmed until ANUVO and the participating clinic have completed the required fit, consent, suitability, payment, and scheduling steps.

## HOW TO START

Book a free 15-minute Program Fit Call at [programs.anuvo.ca/book](https://programs.anuvo.ca/book), or send the family inquiry form at [programs.anuvo.ca/families#inquiry](https://programs.anuvo.ca/families#inquiry). Questions: [inquiries@anuvo.ca](mailto:inquiries@anuvo.ca)

The ANUVO Preferences Intervention Program is an ANUVO-developed implementation support framework delivered through participating clinic-hosted partnerships. ANUVO does not independently provide ABA therapy, occupational therapy, speech-language therapy, psychotherapy, diagnosis, psychoeducational assessment, OAP clinical services, or regulated clinical treatment. Regulated clinical services remain within the scope of the participating licensed clinic or regulated professional. OAP or insurance reimbursement is not guaranteed.
